

Kenwood Drive Project:

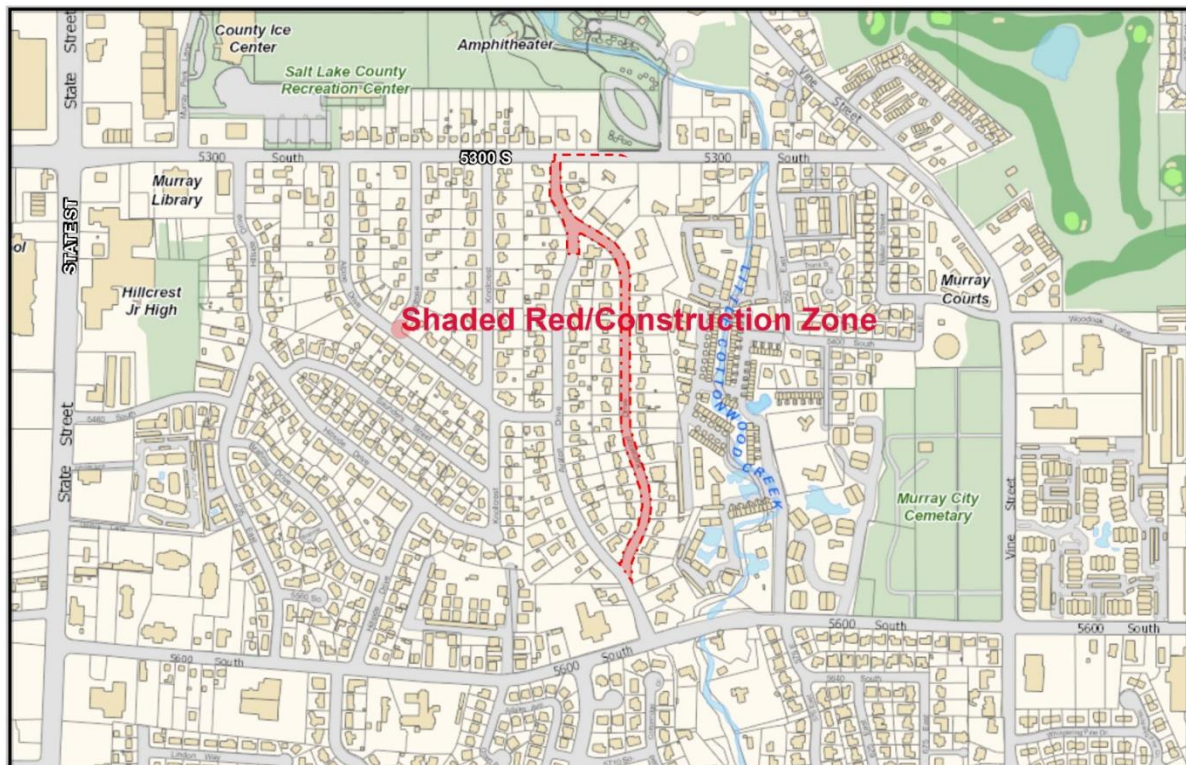

Spade Excavating will begin placement of new water line, sewer line and storm drain line beginning Monday May 20, 2013.

Construction will begin on 5300 South, down Avalon Drive to Kenwood Drive and continue south to the end of Kenwood Drive.

We recommended that you access and leave the neighborhood to the south at 5600 South, or Alpine Drive west from Avalon Drive.

Once the water line, sewer line and storm drain placement is complete, the curb & gutter and roadway will be reconstructed. Removal of tree stumps and landscape will also be part of that construction process. This project will continue through the end of August.

Please review attached map with the construction zone marked in red.
